PETS

1. Read the text and guess what pets do people in the text have.

People live with animals because they are their friends. People like to play with them, to take care of them, to speak to them, to stroke them, or just to be together with them.

The most common pets are dogs, cats, rabbits, guinea pigs, parrots, mice, or hamsters. Some pets are very strange: spiders, lizards, snakes, or chameleons.

I have got a pet, too. He is a male. His name is Gigi. He is quite small with long ears. He has got smooth white fur, red eyes, long whiskers, a small mouth, big ears, and a pink tongue. His legs and paws are strong, he can jump high and run fast. He has got a very short tail. I keep him in a large cage. Gigi eats hay, seeds, fruit and vegetables and drinks water. I play with him every day when I come home from school.

My brother's pet's name is Poppy. She is a female. She has got a big body with red, green, and yellow feathers, a long tail, and a strong beak. My brother keeps her in his room. Not in the cage, just in his room. Poppy eats nuts, seeds, and fruit. She can speak. She can say: "Hello, I am a pretty girl. Are you a pirate?"

Maria, my best friend has got an unusual pet. It has got a long slim body, no legs, no paws, no ears. Only a head, a body, and a tail. It eats mice. Poor mice!!!
