

Název:	Základní škola, M. Horákové 258, Hradec Králové
Autor:	Mgr. Simona Kleinová
Název:	VY_32_INOVACE_07_17C_Aj - Solar system 1
Téma:	Aj -reálie
Číslo projektu:	CZ 1.07/1.4.00/21.2575

Solar system : read about the Solar system and answer
the questions :

The universe is organized into galaxies,
which are collections of stars, planets, and
space dust. Our galaxy is named the Milky
Way.

All life on the Earth - plant, animal and
human - depends on the sun. The sun is a
star, like those we can see in the night sky.
The sun looks much bigger than those stars
because it is the closest one. The sun is very
hot.

Questions : How is the universe organized into ?

: How is named our galaxy ?

: What is the sun ?

The most important objects are nine planets and their moons :

Mercury
Jupiter
Venus
Earth
Mars
Saturn
Uranus
Neptune

Do you know ?

Have ever seen a star falling through the night sky ? They come in all shapes and sizes from space at high speed. They burn and look like fireballs. Most of them never reach the Earth because on their way down they burn up.

If you want to watch them, you will only see five or ten an hour.

What is it ?

Anotace : toto učivo je zaměřené na výuku téma "sluneční soustava"
:žáci nejprve čtou základní informace a odpovídají na otázky
:poté přiřazují jednotlivé planety k obrázkům

Citace : použito ze zakoupené licence smart board - Verze
10.7.144.011:33:15Mar 2 2011
: vlastní tvorba
